

## Help Our Schools and Children's Futures

Dear Governor Doyle:

Wisconsin's children need your help!

As you know, school funding is a huge concern in our state. Critical programs and services are cut every year in virtually every public school district. You showed you care when you established the Governor's Task Force on Educational Excellence.

Now our children need you to act again! Please put into your budget those recommendations of the Task Force and Superintendent Elizabeth Burmaster that are supported by the Wisconsin Alliance for Excellent Schools.

Increasing state aid in these areas will relieve some of the financial burden on local schools and return a measure of local control. This will help each district keep valuable programs and services they would otherwise be forced to cut.

Please help our children in the 2005-07 budget. If we really care about our children and our futures, then we need to **do the right thing** and we need you to **lead the way**.
